Award for Fleet Management Solution

MHP wins Best of Industry Award 2025

- Management and IT consultancy MHP receives one of the most prestigious industry awards
- In the category "Best of Manufacturing & Engineering IoT Software", the fleet management solution MHP FleetExecuter prevails against 19 companies
- Over a period of five months, 25,000 readers voted to select their favorites from among the industry's most outstanding innovations in 19 categories.

Ludwigsburg – MHP has been honored with the Best of Industry Award 2025 in the category IoT Software. With this prestigious award, readers recognize the manufacturer-independent AGV fleet management system MHP FleetExecuter, which enables intelligent control and networking of heterogeneous vehicle fleets. The award recognizes the high level of innovation and practical relevance of the solution and underscores the leading role of MHP as a transformation partner to the manufacturing industry.

Markus Wambach, Group COO at MHP: "We are proud of this award, which recognizes the excellent work of our team. The MHP FleetExecuter demonstrates how innovative, manufacturer-independent software solutions help our customers make their intralogistics more efficient and future-proof."

25,000 readers took part in the vote

The winners in 19 categories were honored at the award ceremony in Würzburg. These included innovations in the industry for outstanding software solutions that enable automation and contribute to efficient and secure interaction in the IoT ecosystem. Nearly 25,000 readers voted for the fleet management system MHP FleetExecuter. The solution prevailed against 19 companies and ultimately against three finalists in the category IoT software.

Henning Hiebsch, partner at MHP: "The fact that the MHP FleetExecuter was honored in the reader poll confirms our commitment to developing practical innovations for the digital factory. The fleet management solution offers real added value: With the MHP FleetExecuter we make complex vehicle fleets easy to manage, thereby making an important contribution to the automation of intralogistics."

The MHP FleetExecuter has already received awards in the past. The fleet management solution won the Allianz Industry 4.0 Award 2024 and Wirtschaftswoche magazine's Best of Consulting Award for the automation project at Porsche. The project at Wildeboer, where the FleetExecuter controls six FTFs and one SOTO (Magazino, Jungheinrich), received an IFOY Award nomination.

ENABLING YOU TO SHAPE A BETTER TOMORROW

About MHP

As a technology and business partner, MHP has been digitizing the processes and products of its around 300 mobility and manufacturing sector customers worldwide since 1996 and providing support for their IT transformations along the entire value chain. For the management and IT consultancy, one thing is certain: digitization is one of the biggest levers on the path to a better tomorrow. This is why MHP, a Porsche AG company, provides both operational and strategic consulting in areas such as customer experience and workforce transformation, supply chain and cloud solutions, platforms and ecosystems, big data and AI, as well as Industry 4.0 and intelligent products. Headquartered in Germany, the consultancy operates internationally with subsidiaries in the USA, Mexico, the UK, Romania, India and China. More than 4,700 MHP employees are united by their pursuit of excellence and sustainable success. It is this aspiration that will continue to drive MHP – today and in the future.
