**Management and IT consultancy Recognised as Leader and Rising Star**

# MHP Named Among Germany's Leading AWS Partners by ISG

- In the latest "ISG Provider Lens™ Report – AWS Ecosystem Partners 2026", MHP is recognised in all four evaluated categories
- In the "AI-Powered Business Transformation with AWS" category, the management and IT consultancy achieved Leader status, highlighting its expertise in integrating artificial intelligence into business processes and operating models on AWS
- In the "AWS Data Lifecycle Management Services" category, MHP was named a Rising Star based on its industry expertise, strong focus on data sovereignty, and close collaboration with AWS

**Ludwigsburg** – According to the latest ISG Provider Lens® Report – AWS Ecosystem Partners 2026, the management and IT consultancy MHP is among the leading AWS service providers in Germany. As part of the study, Information Services Group (ISG) evaluated four areas of the German AWS partner ecosystem: AWS Professional Services, AWS Managed Services, AWS Data Lifecycle Management Services, and AI-Powered Business Transformation with AWS. MHP was positioned in all four categories.

In the "AI-Powered Business Transformation with AWS" segment, MHP was classified as a Leader. This recognition is based on the company's proven expertise in integrating artificial intelligence into business processes and operating models on AWS. Commenting on the assessment, Frank Heuer, Principal Analyst at ISG Germany, stated: "MHP stands out through its ability to accelerate AI project delivery, its strong industry expertise, and its close collaboration with AWS. These strengths have enabled the company to achieve a leading position in the German market for AI-powered business transformation services."

Markus Wambach, Group COO of MHP, added: "AI creates no value if it remains stuck in the experimental stage rather than becoming part of industrial reality. A true competitive advantage emerges only when companies can translate AI into measurable business outcomes faster than their competitors. ISG's recognition of MHP as a Leader in 'AI-Powered Business Transformation with AWS' confirms our commitment to delivering exactly that advantage for our clients."

MHP also impressed in the AWS Data Lifecycle Management Services quadrant. With deep industry expertise, a strong focus on data sovereignty, and close collaboration with Amazon

Web Services (AWS), the management and IT consultancy has emerged as a Rising Star in AWS Data Lifecycle Management in Germany. The company's expertise is particularly strong in the automotive sector.

**About ISG and the Ranking**

Information Services Group (ISG) is a global technology research and advisory firm. Its annual Provider Lens™ reports assess the capabilities of IT and service providers worldwide. The evaluations are based on market data, client feedback, and analyst assessments. ISG operates in more than 20 countries.

In this ISG Provider Lens® quadrant study, ISG evaluated providers across the following four quadrants: AWS Professional Services, AWS Managed Services, AWS Data Lifecycle Management Services, and AI-Powered Business Transformation with AWS. The report examines provider positioning, key partnerships, and go-to-market considerations, making it an important decision-making resource. ISG advisors and enterprise clients also use the information in these reports to assess both existing and potential future provider relationships.

**About MHP**

MHP is a management and IT consultancy headquartered in Ludwigsburg, Germany. For more than 30 years, MHP has combined deep industry expertise with technological know-how, supporting leading companies in complex strategy and IT transformations across the entire value chain. Its industry focus spans automotive and manufacturing, aerospace, defense, and energy, as well as the public sector. MHP provides strategic and operational consulting in key future-focused areas such as business transformation, artificial intelligence, SAP and cloud transformation, manufacturing and supply chain digitalization, software-defined products and operations, data-driven business models, and platform & ecosystem development. At the core is the ambition to translate technological excellence into industrial-scale solutions – fast, sovereign, and resilient. In doing so, MHP strengthens the global competitiveness of its clients. Around 4,500 employees worldwide work together to deliver on this ambition. For more information, visit www.mhp.com.
