Top Rankings in Manufacturing, SAP and Microsoft

ISG Recognizes MHP as a Leading Partner for Industrial Digital Transformation

- According to the latest ISG studies, MHP once again ranks among the leading consulting and IT service providers for digital transformation of industry
- This is reflected in the numerous awards the management and IT consultancy received from ISG across the Manufacturing, SAP and Microsoft domains
- The analyst assessments underscore MHP's successful approach to helping companies become future-ready, resilient, and competitive in an increasingly digital and connected economy

Ludwigsburg – At this year's ISG Awards in Frankfurt, MHP received multiple recognitions as a leading transformation and digitalization partner. Notably, in the Manufacturing Services & Solutions Global 2025 report, ISG ranked MHP as a Leader in all four evaluated categories, making it the only company to achieve this distinction. In addition, MHP secured several top rankings within the SAP and Microsoft ecosystems.

Markus Wambach, Group COO at MHP, said: "These recognitions underline that successful transformation takes more than strong strategies or cutting-edge technologies. What truly matters is the ability to translate both into measurable business outcomes. That is precisely where our strength lies: we help industrial companies reinvent their business and operating models and drive transformation effectively across the entire value chain. Above all, our success is built on the expertise, dedication, and interdisciplinary collaboration of our teams."

In the global Manufacturing report, ISG recognized MHP as a Leader in the following categories:

- Design and Development Services
- Smart/Digital Factory Services
- Supply Chain and Aftermarket Services
- Technology, Transformation and Consulting Services

The report examines the increasing convergence of product development, intelligent manufacturing, supply chains, and aftermarket services into integrated digital ecosystems.

Technologies such as artificial intelligence, Industrial IoT, digital twins, automation, and resilient value chains are shaping industrial transformation worldwide.

Swadhin Pradhan, Assistant Director and Principal Analyst at ISG, stated: "MHP is redefining mobility and manufacturing through AI-driven frameworks, smart factory solutions, and hyperscaler-aligned cloud platforms. Its holistic approach to IT/OT convergence and digital twins enables clients to achieve resilient, autonomous, and sustainable growth."

Leading Position also within the SAP and Microsoft Ecosystems

MHP was also recognized as a Leader in the latest SAP Ecosystem Germany 2026 report. Analysts particularly highlighted the company's expertise in SAP transformations and the implementation of innovative technologies:

- SAP S/4HANA System Transformation – Leader
- SAP S/4HANA System Transformation (Mid-Market) – Leader

Oliver Nickels, Lead Analyst at ISG, said: "MHP delivers S/4HANA transformation through a pragmatic, industry-focused approach that balances speed, risk, and value creation while leveraging deep SAP expertise at scale."

In addition, MHP received the "Rising Star" designation within the Microsoft ecosystem in the categories Productivity and Business Process Services and Azure Managed Services, reinforcing its commitment to supporting clients in shaping their digital transformation journeys.

The study highlights that companies increasingly view transformation, operations, and innovation as interconnected responsibilities. Key priorities include resilient architectures, AI-driven automation, governance, security, and long-term value creation.

"The New Industrial" as a Vision for the Industry of Tomorrow

For MHP, these awards validate its strategic vision, "The New Industrial." This vision is based on the conviction that the future competitiveness of industrial enterprises will depend largely on three core capabilities: Speed, Resilience, and Sovereignty.

Together with its clients, the management and IT consultancy develops the technological and organizational foundations required to enable this new form of industrial leadership. Dr Jan Wehinger, Partner at MHP, added: "Achievements like these are always driven by people. They are the result of trust, collaboration, expertise, and the extraordinary commitment of our teams. These awards therefore belong above all to the many colleagues who work side by side with our clients every day to shape the transformation of industry."

About MHP

MHP is a management and IT consultancy headquartered in Ludwigsburg, Germany. For more than 30 years, MHP has combined deep industry expertise with technological know-how, supporting leading companies in complex strategy and IT transformations across the entire value chain. Its industry focus spans automotive and manufacturing, aerospace, defense, and energy, as well as the public sector. MHP provides strategic and operational consulting in key future-focused areas such as business transformation, artificial intelligence, SAP and cloud transformation, manufacturing and supply chain digitalization, software-defined products and operations, data-driven business models, and platform & ecosystem development. At the core is the ambition to translate technological excellence into industrial-scale solutions – fast, sovereign, and resilient. In doing so, MHP strengthens the global competitiveness of its clients. Around 4,500 employees worldwide work together to deliver on this ambition. For more information, visit www.mhp.com.
