**Ludwigsburg/Cluj-Napoca** – MHP Romania has been named Top Employer 2026 in the IT & C industry (Information Technology & Communications) in the latest Undelucram.ro ranking, placing first in its segment and fourteenth in the overall Top 100 Employers in Romania, across all industries.

The 2026 ranking, covering all employers and industries, is based on 120,000 reviews collected between October 16, 2025, and October 15, 2026. For MHP Romania, being recognized by its own people is a great confirmation of the work done every day.

Radu Radovici, CEO of MHP Romania, commented: "This recognition belongs to our colleagues and their honest words about working at MHP Romania. Feedback matters to us wherever it comes from, whether it's this platform, other external channels or our own internal ones, and we use all of it to keep improving. Thank you to everyone who took the time to share their experience."

This is not MHP Romania's first appearance in the Undelucram.ro top. In 2023, the company placed 2nd in the IT & C category. This year, it moves up to 1st place, a result that reflects the feedback of its own employees.

### About Undelucram.ro and the Ranking

Undelucram.ro is an online platform built around employees' own voices: they review and rate their employers and share their anonymous reviews directly on their company's page.

Undelucram.ro Top Employers 2026 reveals which companies are managing to stand out by creating a work environment that their own employees truly appreciate. The ranking is the only top in Romania based exclusively on employees' feedback, not on public perception or companies' image campaigns.
