

MHP Digital Transformation Journey on AWS

Offering Type

Consulting Service

Offering Description

MHP's comprehensive suite of enterprise cloud solutions on AWS – from cloud AWS migration, to AWS cloud management, to AWS cloud-native development – are designed to deliver business impact and drive innovation. Depending on the individual customer requirements, a complete Digital Transformation Journey on AWS encompassing all seven Cloud Transformation Journey offerings or a subset thereof can be booked. A full Digital Transformation Journey on AWS includes the formulation of an AWS Cloud Strategy & journey definition, organizational transformation & upskilling in scope of AWS Cloud Enablement, definition of an AWS Cloud Architecture & governance thereof, preparation of & the actual move to AWS in scope of an AWS Cloud Migration, developing & optimizing software according to the cloud paradigm in scope of AWS Cloud Development, hosting & operations in scope of AWS Cloud Operations, and lastly, introduction & optimization of AWS Cloud Data Privacy measures. The MHP Digital Transformation Journey on AWS can be extended with further, workload-specific MHP offerings from the fields of SAP, IoT / Industrial Software, Machine Learning and DevOps.
