

# MHP Landing Zone and Multi-Org Management Solution Design

## Offering Type

Consulting Service

## Offering Description

MHP, being a part of VW Group, has gathered extensive knowledge and experience in running workloads on AWS in a compliant, secure and scalable way over the last years. Building on this vast foundation, MHP can help customers design and implement efficient, well-architected AWS landing zones, which can satisfy the requirements and specific guidelines of customers of all sizes, running small footprint workloads to massive global-scale operations.

## Offering Selling Proposition

- Account Provisioning facilities for ready-to-use, fully compliant accounts
- Integration of landing zone accounts into customer's backend systems
- Design & Implementation of governance best practices as well as security mechanisms based on AWS-native services
- Design & Implementation of cost control facilities like alerts, and integration into customer's backend systems
- Design & Implementation Project monitoring facilities and dashboards
- Design & Implementation of Self-Service portals for specific landscape setups
- Design & Implementation of facilities for multi-AWS-Organization management from a compliance, security, support and cost control perspective

### Possible Extensions:

- "Cloud Migration Factory"
- "Serverless Transformation Factory"
- "SAP Migration Factory"
- "SAP (on AWS) Strategy Consulting"
- "Plant IT/OT Migration"
